WATERSTONE
POLISHED PLASTER

WATERSTONE POLISHED PLASTER

A classic Italian styled slaked lime and marble dust wall finish, our Waterstone Polished Plaster utilises centuries old techniques now applied by our skilled applicators.

Layering and polishing techniques produce a natural, soft, and marble-like appearance, finished with wax for a subtle sheen and protection. Creating an astounding sense of depth and transparency, OUR POLISHED PLASTER is available in any imaginable colour and can be customised to compliment your interior design. Applied to any bare plaster, plasterboard, or previously painted surface, even prepared wooden panelling. This will change the way you think about walls!
